## PUBLIC NOTICE OF PROPOSED ACTION

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes. The Administrator has received a complete application for modification of water pollution control effluent reuse discharge permit No. NEV2004529 from the applicant:

**Martin Marietta Materials, Inc.  
11252 Aurora Avenue  
Des Moines, Iowa 50322**

The applicant operates the Martin Marietta Materials Spanish Springs Quarry at 11059 State Route 445 in Sparks Nevada. The applicant utilizes tertiary treated denitrified disinfected effluent for reuse as clarified water which may be blended with groundwater prior to use, and recycled for sand, gravel and rock washing operations at the quarry. The treated effluent (reuse) water is supplied by the Truckee Meadows Water Reclamation Facility (TMWRF, # NEV2003506) in Sparks. Reuse is conducted in accordance with the approved Effluent Management Plan and terms and conditions of this permit. Monitoring is required. The permit is being modified to increase the flow to 1.0 MGD from 0.30 MGD for the remaining time on the original permit which was issued for a five (5) year period, expiring May 2, 2010.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes (NRS) as amended, and implementing regulations, the Administrator proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions.
